“The Council recognises its previous excellent record from the 1930s to the 1980s in providing high quality public housing in estates such as Mayfield, Ballyphehane, Gurranabraher and Mahon, and further recognises that the state, through fundamental changes in policy at national level since the 1980s has abrogated the role of housing provision to predominantly private interests whose prime interest is the creation of profit for themselves and their investors.

In recognising that the private sector and massive subsidisation of landlords and developers has failed to address the housing crisis, Cork City Council accepts that a severe housing crisis now exists. This crisis affects thousands of low and middle income households in this city. In view of this, this Council supports the development of a pilot scheme of 100% public, mixed-income housing on publicly owned lands at Boherboy Road, Mayfield.

Under the scheme, all housing on the site will be built by and rented from the City Council, with 50% of housing units rented at current differential rents to households currently on housing waiting lists, while 50% of housing units will be rented to households earning above the waiting list threshold, but with demonstrated housing need, and paying higher but fair rents in line with their income”
